COMBINING STYLES

A token is the beginning of a style name:
A4 matches, for example, paragraph style: A4 Body
T3 matches, for example, character style: T3 Time blue

Apply a paragraph style and a character style to the same paragraph using +
A4+T3
Important: Do not add spaces around +.

SERIES AND SPECIAL CHARACTERS

A1,A2,A3	Use the next token for each new paragraph
A3,LAST:A9	A3 for paragraphs; A9 for the last one
A3,PRELAST:A8	A8 for the second-to-last paragraph
B1/A3	B1 for headings; A3 for body text
B1+T2/A3+T3	Conditional choice using both style types
[A1,A2,A3]	Repeat the series in a loop
A1,A2,A3//	Same loop, alternative syntax

REMEMBER

A comma (,) means the next paragraph.
A plus sign (+) combines styles on the same paragraph.
A slash (/) selects between heading and body text styles; it does not combine them.
LAST: and PRELAST: override the last/second-to-last non-empty paragraph.
